1. Editorial

Welcome to the first issue of Dominators Internal News. The purpose of this paper "mag" is to make sure that all Dominators members knows whats going on in their group. Experience have learned us that communication can be difficult because we live in different countries and even if we live in the same country. We all know how expensive it is to call without abusing a card and it can be hard finding the needed time to call around. Therefore it is my hope that we can use this internal mag to communicate with each other and keep up to date with whats going on.

I'll start by welcoming some new dominators and some older which we haven't welcomed yet. Let me introduce you to:

Ghost, who joined us in August and is an ex member of Laser Inc.
Ghost is a swapper.

Jayce, who joined us in the beginning of September and is an ex member of Chromance. Jayce is from sweden and is also a swapper.

And the newer members are from X-factor and joined us the 20th of September:

Ace (cracker)
Ecco (coder)
Exulans (cracker, Sysop The Lonely Island Dom Euro HQ)
Spiderman (megaswapper)

Also we have 2 guys working for us freelance doing demos and intros. The have just released a demo which will be spread around soon. They are:

Grizzly Adams and Pavarotti.

I hope you'll all feel home in Dom and do a good job for us.

You might ask why i'm doing this mag on paper instead of on disk. The main reason is that we'll avoid that someone incidentally spread the mag on a spread disk. That would be fatal as the information in this mag is confidential and must not be known to the public. Information about Dom is mainly going to be published by those responsible for Corruption. Each members is ofcoz allowed to pass general information like who joined and alike, but other things like future plans and our working methods is strictly for dom members only.

This mag will be published at least every month or even more frequent if something interesting happens.

2. What's new

In this chapter i'll try to mention what happened in the group since the last issue or whatever would be interesting for us to know.

I have mentioned our new members so i'll begin with summing up where the group stands right now.

It's with great disappointment that we have been waiting 11 weeks now for something to be released in england. There have only been a few releases and mostly budgets and it hasn't been worth spending money on so far so we have to wait some more. Probably until November.

An english member living in the London would be of great interest, because he could buy games when only budgets games are released or even all games, so he could upload them to our BBS and Dogfriend would be able to download it and crack it at the same time as it's getting fixed. That would save us a lot of money and time, so if you know an english dude you think could do the job, then call Dogfriend or me.

Within long time we'll be without a BBS WHQ, because the sysop Cyborg of Dreampark is quitting when he finds a buyer for his hardware. We hope to find a new one soon. I have talked to a dude called Syntax Terror who had a board up a long time ago and he is probably interested in running our Whq.

But a a cheering up i can inform u that Exulans put up the DOMINATORS Euro HQ **THE LONELY ISLAND** and it's going to rule for sure. Make sure to call it at 56954740 and spread the word around. The bbs got over 11 calls the first day and many dudes have applied for access.

Also we'll maybe have a big original buyer from Norway. The leader of a norwegian computerclub wrote to us and wanted to buy originals, since 64 originals are almost impossible to get in Norway. Also is you know a group which would be interested in originals then tell Paul. The more buyers the less we must pay ourselves.

At the moment we have capital for app. 2 sendings. The new ex members of X-factor have payed 250 dkk each so we have all payed the same now. Next time we order games from England we'll all have to pay again.

4. Status

Here you can find the addresses and phone numbers of all your fellow dom members.

Ace (Cracker)
Animal (Vice President)
Bladerunner (Card Collector)
Cosmo (President)
* Cyborg (Sysop Dreampark)
Deff (Editor Corruption, mega swapper)
Dogfriend (President, Main Cracker)
Ecco (Coder)
Ghost (Swapper)
Idol (Swapper)
Jack Daniels (Area President Germany, Main Editor Corruption)
Jayce (Swapper)
Spiderman (Mega Swapper)
Twist (Swapper, cracker)
Exulans (Sysop The Lonely Island, Cracker)

5. What's Next

Here i'll try to sum up the issues we need to work with the next weeks. What is our plans in the future and how can we make them come true.

Fx i can mention our hacker problem. It's real hard to get codes at the moment and we must solve that soon. The last way can be to buy codes, but i hope we will find another way.

Also we need a fixer as we have no agreement with any us group at the moment. As long as nothing is released it no problem, but when the warez begin to flow we'll have to find one. The Shadow is a possibility, but he is hard to get a hold of. He have told me that he will fix for us though, but i don't know if he'll do.

Concerning all topics i would be glad to get responds from u to print in the follow up chapter.

5. Follow up

In this chapter I'll try to follow up on the things we started or planned to do. Did we succeed or did we fail and why. In the next issue i'll follow up on our efforts to find an english member.

Also i'll state what we released and who did the fixing. Remember to send all your productions to either Dogfriend or Cosmo or upload them to our board(s). All the cracks of the originals we buy will offcoz be sent to you directly from Dogfriend if you have sent disks and stamped envelopes to him. Alternatively you can grab them from our Euro HQ. We'll find out who hasn't got that opportunity and they'll get it by mail.

In the future Dogfriends expenses for mailing cracks will maybe be paid by our fellow account, but that is only if we get that norwegian customer, so send your disks to paul now if you haven't already.

6. Mixed

Well i'll write just about everything here. Fx responds from u, news from the scene, advertisements, parties or whatever.

- Illusion has been the most active group the last month. They have been releasing all the budget games. It seems like they have taken over Bod/Talent's area. It's mainly the ex. dom members in illusion doing the work.

- Drake'n'Janec left Talent. Probably because Bod is a lamer and don't give them any cards. We might see them in Dom now?

- Tricket ex Dom is back in the scene. He has been seen calling out all around in the states.

- Duke also ex Dom is also back in the scene. At&t dropped all charges, but the danish telecom will probably charge him for the pbx's. Duke might rejoin us.

I hope you enjoyed these 4 pages. L8r Cosmo
